

# SecureAware<sup>®</sup> BCP

- *In the event of an accident, is your BCP accessible?*
- *Do you need to test out your BCP on a regular basis?*
- *Is keeping your BCP up-to-date time-consuming and complicated?*

SecureAware BCP enables you to create and maintain a Business Continuity Plan that suits exact requirements. The module includes a selection of editable templates which saves you time and resources when creating your BCP from scratch. Existing material in Word, PDF and PowerPoint format can be reused. SecureAware BCP gives you a range of tools to manage recurring activities and documentation for updates to the plan are recorded automatically upon approval.

With SecureAware BCP, your company's business continuity plan becomes accessible to all relevant parties and can be stored in its entirety as a ZIP or PDF file. Available as both 'stand alone' on a single laptop and as a hosted service.

SecureAware BCP can be fully integrated with other SecureAware products and BCP activities can be managed through the SecureAware Compliance Workflow module. Several different BCPs can be maintained (e.g. one for each location or business unit) using the portal function.

## Business benefits:

- ✓ Round-the-clock BCP accessibility
- ✓ Simplified upkeep. Your BCP is always up-to-date
- ✓ Makes regular, periodic testing simple and non-intrusive
- ✓ Time-saving templates
- ✓ Increases your readiness for unexpected and unforeseen incidents and accidents
- ✓ Facilitates employee BCP training, providing clear outlines of specific roles in the event of an incident
- ✓ Compliant with British Standard BS25999-1 Business Continuity Management Code of Practice.
- ✓ Facilitates compliance with ISO27002 recommendations
